

YouTube Recording Session

14 or 21 July 2013

Apply as individuals, groups or choirs on the form below, indicating the preferred date and time slot for the group. Groups of 20 or more from choirs will be listed on the DVD and on www.trbc.co.uk. To split your times send multiple forms, but please send only one payment with each form.

How it will work

Groups should enter the Studio at their given time, to be arranged in voices. After rehearsal, several 'takes' will be done. The sound recording will layer groups of up to 250 singers, as the professionals do it, wearing single headphones and singing to a pre-recorded accompaniment of clarinet, strings and timpani. All sessions will be filmed professionally for the YouTube video and DVD. We will try to make sure everyone can spot themselves. The number and times of sessions will depend on the response. The earliest will not be before 9:00AM, the latest will end by 7:00PM. For balance we may ask men to do consecutive Sessions.

Vocal Parts will be Supplied

We aim to send these plus all the final details by 15 June but please be patient.

Rehearsal Material will be Available

Rehearsal material will be free to download from Choraline on www.choraline.com, who also aim to make this available by 15 June.

Capacity is limited.

Apply as soon as you can to avoid disappointment.

	No.		TOTALS		No.		TOTALS
